

# The Healthy School Conundrum

*How does NEA support its healthy school goal*

**#transition**

**#effectiveness**

**#affordability**

After 20 years NEA has reevaluated its role, ability and methods of supporting initiatives for healthy schools. Healthy Futures, the Not For Profit arm of NEA on these issues, has been disbanded.

NEA remains committed to creating the best environment for children to learn. Exploring the best models...partnerships, financial support, etc. Maintaining programs like Breakfast in the Classroom and Crisis Management

**Gary Phoebus, NEA MB**
