

# To promote good schools through mental health

*Project / Stand Baseline*

# Mind Matters

**Mit psychischer Gesundheit  
gute Schule entwickeln**

**Mental health**

**Education**

**School**

MindMatters is a whole-school approach to develop good schools through promotion and protection of mental health and wellbeing of students and staff of primary and secondary schools. The program is the biggest in Germany and consists of 10 modules. It is funded by BARMER GEK (Health insurance) and the German Social Accident Insurance (DGUV) and run by Leuphana University Lueneburg.
